 1. Stay on the line with 911 and follow emergency instructions.
 2. Stay calm and try to keep the patient calm.
 3. Don't move a patient who was injured in an automobile accident or fall, or who was found unconscious.
 4. If the patient is cold, cover them with a blanket.
 5. Don't give an injured person anything to eat or drink (unless instructed by the 911 dispatcher).
 6. Have someone watch for the ambulance and show the crew how to get to the patient.
 - Make or buy first aid kits for your home and car.
 - Take classes to learn emergency skills. Contact your local fire department or Red Cross chapter to find courses available in your area.
